**Securities registered pursuant to Section 12(b) of the Act:**

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one share of Class A ordinary shares, \$0.0001 par value, and one-third of one redeemable warrant	DHCAU	The Nasdaq Stock Market LLC
Class A ordinary shares included as part of the units	DHCA	The Nasdaq Stock Market LLC
Redeemable warrants included as part of the units, each whole warrant exercisable for one Class A ordinary share at an exercise price of \$11.50	DHCAW	The Nasdaq Stock Market LLC

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer   
Non-accelerated filer

Accelerated filer   
Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of August 16, 2021, there were 30,945,072 Class A ordinary shares, \$0.0001 par value and 7,736,268 Class B ordinary shares, \$0.0001 par value, issued and outstanding.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

**NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

DHC Acquisition Corp. (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on December 22, 2020. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities (the “Business Combination”).

The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

All activity through June 30, 2021 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company has selected December 31 as its fiscal year end.

The registration statement for the Company’s Initial Public Offering was declared effective on March 1, 2021. On March 4, 2021, the Company consummated the Initial Public Offering of 30,000,000 units (the “Units” and, with respect to the Class A ordinary shares included in the Units sold, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$300,000,000 which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 6,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to DHC Sponsor, LLC (the “Sponsor”), generating gross proceeds of \$9,000,000, which is described in Note 4.

Following the closing of the Initial Public Offering on March 4, 2021, an amount of \$300,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”), located in the United States and will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

On March 5, 2021, the underwriters partially exercised their over-allotment option, resulting in an additional 945,072 Units issued for an aggregate amount of \$9,450,720. In connection with the underwriters’ partial exercise of their over-allotment option, the Company also consummated the sale of an additional 126,010 Private Placement Warrants at \$1.50 per Private Placement Warrant, generating total proceeds of \$189,015. A total of \$9,450,720 was deposited into the Trust Account, bringing the aggregate proceeds held in the Trust Account to \$309,450,720.

Transaction costs amounted to \$17,501,346, consisting of \$6,189,014 in cash underwriting fees, \$10,830,775 of deferred underwriting fees and \$481,557 of other offering costs.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The rules of the stock exchange that the Company will list its securities on will require that the Company’s initial Business Combination must be with one or more target businesses that have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on the income earned on the Trust Account) at the time of the signing of a definitive agreement in connection with the initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. There is no assurance that the Company will be able to complete a Business Combination successfully.

The Company will provide the holders of its issued and outstanding Public Shares (the “public shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company. The public shareholders will be entitled to redeem their Public Shares, equal to the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Business Combination, (initially \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and net of taxes payable), divided by the number of then issued and outstanding public shares. The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 either immediately prior to or upon such consummation of a Business Combination and, if the Company seeks shareholder approval, it receives an ordinary resolution under Cayman Islands law approving a Business Combination, which requires the affirmative vote of a majority of the shareholders who attend and vote at a general meeting of the Company. If a shareholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a shareholder vote for business or other reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association, conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (the “SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transactions is required by

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

applicable law or stock exchange listing requirements, or the Company decides to obtain shareholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks shareholder approval in connection with a Business Combination, the Sponsor has agreed to vote any Founder Shares (as defined in Note 4) and Public Shares held by it in favor of approving a Business Combination. Additionally, each public shareholder may elect to redeem their Public Shares, without voting, and if they do vote, irrespective of whether they vote for or against an Initial Business Combination.

Notwithstanding the foregoing, if the Company seeks shareholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Company's Amended and Restated Memorandum and Articles of Association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares, without the prior consent of the Company.

The Sponsor and the Company's officers and directors have agreed to waive: (i) their redemption rights with respect to any Founder Shares and Public Shares held by them in connection with the completion of the Company's Business Combination and (ii) their redemption rights with respect to the Founder Shares and any Public Shares held by them in connection with a shareholder vote to approve an amendment to the Company's Amended and Restated Memorandum and Articles of Association (A) to modify the substance or timing of the Company's obligation to allow redemption in connection with a Business Combination or to redeem 100% of the Public Shares if the Company does not complete a Business Combination within 24 months from the closing of the Initial Public Offering or (B) with respect to any other provision relating to shareholders' rights and (iii) waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if the Company fails to consummate an initial business combination within 24 months from the closing of this offering.

The Company will have until March 4, 2023 to complete a Business Combination (the "Combination Period"). If the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible, but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining shareholders and the Company's board of directors, liquidate and dissolve, subject in each case to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The Sponsor has agreed to waive its liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor acquires Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 4) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per-share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party (except for the Company's independent registered public accounting firm) for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amounts in the Trust Account to below (i) \$10.00 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except for the Company's independent registered public accounting firm), prospective target businesses and other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s prospectus for its Initial Public Offering as filed with the SEC on March 2, 2021. The interim results for the three and six months ended June 30, 2021, are not necessarily indicative of the results to be expected for the year ending December 31, 2021.

***Emerging Growth Company***

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

***Use of Estimates***

The preparation of the unaudited condensed financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and, accordingly, the actual results could differ significantly from those estimates.

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three and six months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2021 and December 31, 2020.

***Offering Costs***

Offering costs consisted of legal, accounting and other expenses incurred through the Initial Public Offering that were directly related to the Initial Public Offering. Offering costs were allocated to the separable financial instruments issued in the Initial Public Offering based on a relative fair value basis, compared to total proceeds received. Offering costs associated with warrant liabilities were expensed as incurred in the condensed statements of operations. Offering costs associated with the Class A ordinary shares issued were charged to shareholders' equity upon the completion of the Initial Public Offering.

***Class A Ordinary Shares Subject to Possible Redemption***

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Class A ordinary shares subject to mandatory redemption are classified as a liability instrument and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, at June 30, 2021, 27,841,466 Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of the Company's balance sheets, respectively.

***Warrant Liabilities***

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to ASC 480 and FASB ASC Topic 815, "Derivatives and Hedging" ("ASC 815"). The Company accounts for the Warrants in accordance with the guidance contained in ASC 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the Warrants as liabilities at their fair value and adjust the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheets date until exercised, and any change in fair value is recognized in our statements of operations. The Private Placement Warrants and the Public Warrants for periods where no observable traded price was available are valued using a Monte Carlo simulation. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price will be used as the fair value as of each relevant date.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

**Income Taxes**

The Company accounts for income taxes under ASC Topic 740, “Income Taxes,” which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company’s management determined that the Cayman Islands is the Company’s major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of June 30, 2021 and December 31, 2020, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company’s management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The Company is considered to be an exempted Cayman Islands company with no connection to any other taxable jurisdiction and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company’s tax provision was zero for the period presented.

**Net Income (Loss) per Ordinary Share**

Net loss per ordinary share is computed by dividing net income (loss) by the weighted average number of ordinary shares outstanding for the period. The calculation of diluted income (loss) per ordinary share does not consider the effect of the warrants issued in connection with the (i) Initial Public Offering, (ii) the exercise of the over-allotment option and (iii) Private Placement Warrants, since the average stock price of the Company’s ordinary shares for the three and six months ended June 30, 2021 was less than the exercise price and therefore, the inclusion of such warrants under the treasury stock method would be anti-dilutive. The Company’s statements of operations includes a presentation of income (loss) per share for ordinary shares subject to possible redemption in a manner similar to the two-class method of income (loss) per share. Net income per ordinary share, basic and diluted, for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account, by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per share, basic and diluted, for Class B non-redeemable ordinary shares is calculated by dividing the net loss, adjusted for income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the period. Class B non-redeemable ordinary shares includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share (in dollars, except per share amounts):

	For the Three Months ended June 30, 2021	For the Six Months ended June 30, 2021
<b>Class A ordinary Shares subject to possible redemption</b>		
Numerator: Earnings allocable to Class A ordinary shares subject to possible redemption		
Interest earned on marketable securities held in Trust Account	\$ —	\$ —
Net income (loss) attributable to Class A ordinary shares subject to possible redemption	\$ —	\$ —
Denominator: Weighted Average Class A ordinary shares subject to possible redemption		
Basic and diluted weighted average shares outstanding, Class A ordinary shares subject to possible redemption	30,945,072	30,945,072
Basic and diluted net income (loss) per share, Class A ordinary shares subject to possible redemption	\$ —	\$ —
<b>Non-Redeemable Ordinary shares</b>		
Numerator: Net loss minus Net Earnings—Basic		
Net loss	\$ (649,446)	\$ (2,053,442)
Less: Net income allocable to Class A ordinary shares subject to possible redemption	—	—
Non-Redeemable Net loss—Basic	\$ (649,446)	\$ (2,053,442)
Denominator: Weighted Average non-redeemable Class B ordinary shares		
Basic and diluted weighted average shares outstanding, non-redeemable Class B ordinary shares	7,736,268	7,654,031
Basic net loss per share, non-redeemable Class B ordinary shares	\$ (0.08)	\$ (0.27)

**Concentration of Credit Risk**

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times may exceed the Federal Depository Insurance Corporation coverage limit of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such account.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximate the carrying amounts represented in the accompanying condensed balance sheets, primarily due to their short-term nature, except for the warrant liabilities (see Note 9).

***Recent Accounting Standards***

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40) ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's unaudited condensed financial statements.

**NOTE 3. PUBLIC OFFERING**

Pursuant to the Initial Public Offering, the Company sold 30,000,000 Units, at a price of \$10.00 per Unit. Each Unit consists of one Class A ordinary share and one-third of one redeemable warrant ("Public Warrant"). Each whole Public Warrant entitles the holder to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 8). On March 5, 2021, the underwriters partially exercised their over-allotment option, resulting in an additional 945,072 Units issued for an aggregate amount of \$9,450,720.

**NOTE 4. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased 6,000,000 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant, for an aggregate purchase price of \$9,000,000. The Sponsor has agreed to purchase up to an additional 600,000 Private Placement Warrants, for an aggregate purchase price of an additional \$900,000, if the over-allotment option is exercised in full in part by the underwriters. On March 5, the Sponsor purchased 126,010 Private Placement Warrants for an additional aggregate purchase price of \$189,015 in connection with the partial exercise of the underwriter's over-allotment option. Each Private Placement Warrant is exercisable to purchase one Class A ordinary share at a price of \$11.50 per share, subject to adjustment (see Note 6). A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law), and the Private Placement Warrants will expire worthless.

**NOTE 5. RELATED PARTY TRANSACTIONS**

***Founder Shares***

In December 2020, the Sponsor paid \$25,000 to cover certain expenses on behalf of the Company in consideration for 7,187,500 Class B ordinary shares (the "Founder Shares"). On March 1, 2021, the Company effected a share capitalization, pursuant to which an additional 1,437,500 Class B ordinary shares were issued, resulting in an aggregate of 8,625,000 Founder Shares outstanding. At June 30, 2021, the Founder Shares included an aggregate of up to 888,732 shares that were subject to forfeiture by the Sponsor following the underwriters' election to partially exercise their over-allotment option so that the number of Founder Shares collectively represented 20% of the Company's issued and outstanding shares upon the completion of the Initial Public Offering (assuming the Sponsor does not purchase any Public Shares in the Initial Public Offering). As a result of the underwriters' remaining over-allotment option expiring subsequent to June 30, 2021, 888,732 Founder Shares were forfeited.

The Sponsor has agreed, not to transfer, assign or sell any Founder Shares until the earlier to occur of (i) one year after the completion of the Company's Business Combination and (ii) subsequent to a Business Combination, (x) if the closing price of the Company's Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share subdivisions, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Company's Business Combination or (y) the date on which the Company completes a liquidation, merger, share exchange, or other similar transaction that results in all of the Company's public shareholders having the right to exchange their Class A ordinary shares for cash, securities or other property.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

***Administrative Services Agreement***

The Company entered into an agreement, commencing on March 4, 2021, through the earlier of the Company's consummation of a Business Combination and its liquidation, to pay an affiliate of the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services. For the three and six months ended June 30, 2021, the total expense for administrative services was \$30,000 and \$40,000, respectively and \$40,000 is included in accrued expenses on the condensed balance sheet as of June 30, 2021.

***Promissory Note — Related Party***

On December 29, 2020, the Sponsor issued an unsecured promissory note to the Company (the "Promissory Note"), pursuant to which the Company could borrow up to an aggregate principal amount of \$300,000. The Promissory Note was non-interest bearing and payable on the earlier of (i) July 31, 2021 or (ii) the completion of the Initial Public Offering. The outstanding amount of \$171,357 was repaid after the closing of the Initial Public Offering on March 9, 2021. Borrowings under the Promissory Note are no longer available.

***Advances from Related Party***

As of June 30, 2021, the Sponsor paid \$123,780 on behalf of the Company in connection with certain offering and operating costs. The advances are non-interest bearing and are currently due on demand.

***Related Party Loans***

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required (the "Working Capital Loans"). If the Company completes a Business Combination, the Company may repay the Working Capital Loans. Otherwise, the Working Capital Loans may be repaid only out of funds held outside the Trust Account. The Working Capital Loans would either be repaid upon consummation of a Business Combination or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.50 per warrant. Such warrants would be identical to the Private Placement Warrants. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of June 30, 2021 and December 31, 2020, there were no working capital loans outstanding.

**NOTE 6. COMMITMENTS**

***Risks and Uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

***Registration Rights***

Pursuance to a registration rights agreement entered into on March 4, 2021, the holders of the Founder Shares, Private Placement Warrants and any warrants that may be issued upon conversion of Working Capital Loans (and any Class A ordinary shares issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of the Initial Public Offering. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. However, the registration and shareholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lockup period, which occurs (i) in the case of the Founder Shares, and (ii) in the case of the Private Placement Warrants and the respective Class A ordinary shares underlying such warrants, 30 days after the completion of the Business Combination. The registration rights agreement does not contain liquidated damages or other cash settlement provisions resulting from delays in registering the Company's securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The Company granted the underwriters a 45-day option from the date of the Initial Public Offering to purchase up to 4,500,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On March 5, 2021, the underwriters elected to partially exercise their over-allotment option to purchase an additional 945,072 Units and their option to purchase an additional 3,554,928 Units expired.

The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$1,632,775 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**NOTE 7. SHAREHOLDERS' EQUITY**

***Preference Shares*** — The Company is authorized to issue 5,000,000 preference shares with a par value of \$0.0001 per share, with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At June 30, 2021 and December 31, 2020, there were no preference shares issued or outstanding.

***Class A Ordinary Shares*** — The Company is authorized to issue 500,000,000 Class A ordinary shares with a par value of \$0.0001 per share. Holders of the Company's Class A ordinary shares are entitled to one vote for each share. At June 30, 2021, there were 3,103,606 Class A ordinary shares issued and outstanding, excluding 27,841,466 Class A ordinary shares subject to possible redemption. At December 31, 2020, there were no Class A ordinary shares issued or outstanding.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**

**JUNE 30, 2021**

**Class B Ordinary Shares** — The Company is authorized to issue 50,000,000 Class B ordinary shares with a par value of \$0.0001 per share. Holders of Class B ordinary shares are entitled to one vote for each share. At June 30, 2021 and December 31, 2020, there were 7,736,268 and 8,625,000 shares of Class B ordinary shares issued and outstanding.

Holders of Class A ordinary shares and Class B ordinary shares will vote together as a single class on all other matters submitted to a vote of shareholders, except as required by law; provided that only holders of Class B ordinary shares have the right to vote on the appointment of directors prior to the Company's initial Business Combination.

The Class B ordinary shares will automatically convert into Class A ordinary shares at the time of a Business Combination on a one-for-one basis, subject to adjustment. In the case that additional Class A ordinary shares, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in the Initial Public Offering and related to the closing of a Business Combination, the ratio at which Class B ordinary shares shall convert into Class A ordinary shares will be adjusted (unless the holders of a majority of the issued and outstanding Class B ordinary shares agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of Class A ordinary shares issuable upon conversion of all Class B ordinary shares will equal, in the aggregate, 20% of the sum of all ordinary shares issued and outstanding upon completion of the Initial Public Offering plus all Class A ordinary shares and equity-linked securities issued or deemed issued in connection with the Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the Business Combination and any private placement-equivalent warrants issued to the Sponsor or its affiliates upon conversion of loans made to the Company).

**NOTE 8. WARRANT LIABILITIES**

As of June 30, 2021, there were 10,315,024 Public Warrants outstanding. As of December 31, 2020 there were no Public Warrants outstanding. Public Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Public Warrants will become exercisable on the later of (a) one year from the closing of the Initial Public Offering and (b) 30 days after the completion of a Business Combination. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any Class A ordinary shares pursuant to the exercise of a Public Warrant and will have no obligation to settle such Public Warrant exercise unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares underlying the Public Warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No Public Warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption is available.

The Company has agreed that as soon as practicable, but in no event later than twenty business days after the closing of the Company's Business Combination, the Company will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A ordinary shares issuable upon exercise of the warrants, and the Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days after the closing of a Business Combination, and to maintain the effectiveness of such registration statement and a current prospectus relating to those Class A ordinary shares until the warrants expire or are redeemed, as specified in the warrant agreement; provided that the Class A ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that they satisfy the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

***Once the warrants become exercisable, the Company may redeem the Public Warrants for redemption (Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00):***

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$18.00 per share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant) for any 20 trading days within a 30-trading day period ending three trading days before the Company sends the notice of redemption to the warrant holders.

The Company will not redeem the warrants unless a registration statement under the Securities Act covering the issuance of the Class A ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those Class A ordinary shares is available throughout the 30-day redemption period. If and when the warrants become redeemable the Company may exercise its redemption right even if the Company is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

**Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00.** Once the warrants become exercisable, the Company may redeem the outstanding warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days' prior written notice of redemption *provided* that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares determined based on the redemption date and the "fair market value" of the Class A ordinary shares;
- if, and only if, the closing price of the Class A ordinary shares equals or exceeds \$10.00 per public share (as adjusted for adjustments to the number of shares issuable upon exercise or the exercise price of a warrant) for any 20 trading days within the 30-trading day period ending three trading days before the Company send the notice of redemption to the warrant holders; and
- if the closing price of the Class A ordinary shares for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders is less than \$18.00 per share, the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding public warrants.

In addition, if (x) the Company issue additional Class A ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by the board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial business combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Class A ordinary shares during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to the higher of the Market Value and the Newly Issued Price.

As of June 30, 2021, there were 6,126,010 Private Placement Warrants outstanding. As of December 31, 2020 there were no Private Placement Warrants outstanding. The Private Placement Warrants will be identical to the Public Warrants underlying the Units being sold in the Initial Public Offering, except that (x) the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable as described above so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**NOTE 9. FAIR VALUE MEASUREMENTS**

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

At June 30, 2021, assets held in the Trust Account were comprised of \$309,450,720 in cash. At December 31, 2020 there were no assets held in the Trust Account. During the three and six months ended June 30, 2021, the Company did not withdraw any interest income from the Trust Account.

The following table presents information about the Company's liabilities that are measured at fair value on a recurring basis at June 30, 2021 and December 31, 2020, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description	Level	June 30, 2021
<b>Liabilities:</b>		
Warrant Liability – Public Warrants	1	\$10,521,324
Warrant Liability – Private Placement Warrants	3	\$ 6,309,790

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

The Warrants were accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities on our accompanying June 30, 2021 unaudited condensed balance sheets. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within change in fair value of warrant liabilities in the condensed statements of operations.

The Company established the initial fair value for the Warrants on March 4, 2021, the date of the Company's Initial Public Offering, using a Monte Carlo Simulation for the Private Placement Warrants and the Public Warrants. The Company allocated the proceeds received from (i) the sale of Units (which is inclusive of one share of Class A ordinary shares and one-half of one Public Warrant), (ii) the sale of Private Placement Warrants, and (iii) the issuance of Class B ordinary shares, first to the Warrants based on their fair values as determined at initial measurement, with the remaining proceeds allocated to Class A ordinary shares subject to possible redemption, Class A ordinary shares and Class B ordinary shares based on their relative fair values at the initial measurement date. The Warrants were classified as Level 3 at the initial measurement date due to the use of unobservable inputs. The subsequent measurements of the Public Warrants after the detachment of the Public Warrants from the Units is classified as Level 1 due to the use of an observable market quote in an active market under the ticker DHCAW. The subsequent measurement of the Private Placement Warrants was calculated using a Monte Carlo Simulation which is considered a Level 3 measurement.

The key inputs into the Monte Carlo simulation model for Level 3 Warrants were as follows :

Input	June 30, 2021
Risk-free interest rate	1.10%
Expected Term (Years)	5.0
Expected volatility	15%
Exercise price	\$11.50
Unit Price	\$10.00

The following table presents the changes in the fair value of Level 3 warrant liabilities:

	Private Placement	Public	Warrant Liabilities
Fair value as of January 1, 2021	\$ —	\$ —	\$ —
Initial measurement on March 4, 2021 (IPO)	5,940,000	9,900,000	15,840,000
Initial measurement on March 5, 2021 (Over allotment)	124,750	311,874	436,624
Change in fair value	245,040	412,621	657,641
Fair value as of March 31, 2021	\$ 6,309,790	\$ 10,624,475	\$ 16,934,265
Change in fair value	—	(103,151)	(103,151)
Transfer to Level 1	—	(10,521,324)	(10,521,324)
Fair value as of June 30, 2021	<u>\$ 6,309,790</u>	<u>\$ —</u>	<u>\$ 6,309,790</u>

Transfers to/from Levels 1, 2 and 3 are recognized at the end of the reporting period in which a change in valuation technique or methodology occurs. The estimated fair value of the Public Warrants transferred from a Level 3 measurement to a Level 1 fair value measurement during the six months ended June 30, 2021 was \$10,521,324. There were no transfers from Level 3 to Level 2 during the three and six months ended June 30, 2021.

**DHC ACQUISITION CORP.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**JUNE 30, 2021**

**NOTE 10. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheets date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

References in this report (the “Quarterly Report”) to “we,” “us” or the “Company” refer to DHC Acquisition Corp. References to our “management” or our “management team” refer to our officers and directors, and references to the “Sponsor” refer to DHC Sponsor, LLC. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### **Special Note Regarding Forward-Looking Statements**

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Form 10-Q including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding the completion of the Proposed Business Combination (as defined below), the Company’s financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek” and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements, including that the conditions of the Proposed Business Combination are not satisfied. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s final prospectus for its Initial Public Offering filed with the U.S. Securities and Exchange Commission (the “SEC”). The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

### **Overview**

We are a blank check company incorporated in the Cayman Islands on December 22, 2020 formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses or entities. We intend to effectuate our Business Combination using cash derived from the proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, our shares, debt or a combination of cash, shares and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

### **Results of Operations**

We have neither engaged in any operations nor generated any revenues to date. Our only activities through June 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination. We generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended June 30, 2021, we had a net loss of \$649,446, which consists of operating costs of \$752,597, offset by change in fair value of warrant liability of \$103,151.

For the six months ended June 30, 2021, we had a net loss of \$2,053,442, which consists of operating costs of \$912,613, change in fair value of warrant liability of \$554,490 and transaction costs allocated to warrant liabilities of \$586,339.

### **Liquidity and Capital Resources**

On March 4, 2021, we consummated the Initial Public Offering of 30,000,000 Units at \$10.00 per Unit, generating gross proceeds of \$300,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 6,000,000 Private Placement Warrants at a price of \$1.50 per Private Placement Warrant in a private placement to the Sponsor, generating gross proceeds of \$9,000,000.

On March 5, 2021, in connection with the underwriters’ exercise of their over-allotment option in full, we consummated the sale of an additional 945,072 Units at a price of \$10.00 per Unit, generating total gross proceeds of \$9,450,720. In addition, we also consummated the sale of an additional 126,010 Private Placement Warrants at \$1.50 per Private Warrant, generating total gross proceeds of \$189,015.

Following the Initial Public Offering, the partial exercise of the over-allotment option, and the sale of the Private Placement Warrants, a total of \$309,450,720 was placed in the Trust Account. We incurred \$17,501,346 in Initial Public Offering related costs, including \$6,189,014 of underwriting fees, \$10,830,775 of deferred underwriting fees and \$481,557 of other costs.

For the six months ended June 30, 2021, cash used in operating activities was \$1,571,319. Net loss of \$2,053,442 was affected by change in fair value of warrant liability of \$554,490 and transaction costs allocated to warrant liabilities of \$586,339. Changes in operating assets and liabilities used \$658,706 of cash for operating activities.

As of June 30, 2021, we had cash held in the Trust Account of \$309,450,720. We may withdraw interest from the Trust Account to pay taxes, if any. We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less income taxes payable), to complete our Business Combination. To the extent that our share capital or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

## [Table of Contents](#)

As of June 30, 2021, we had cash of \$1,081,105. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor, or certain of our officers and directors or their affiliates may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.50 per warrant, at the option of the lender. The warrants would be identical to the Private Placement Warrants.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our Public Shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination.

### **Off-Balance Sheet Arrangements**

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of June 30, 2021. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

### **Contractual obligations**

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay an affiliate of one of our Sponsor a monthly fee of \$10,000 for office space, utilities and secretarial and administrative services. We began incurring these fees on March 4, 2021 and will continue to incur these fees monthly until the earlier of the completion of the Business Combination and our liquidation.

The underwriters are entitled to a deferred fee of \$0.35 per unit, or \$10,500,000 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

### **Critical Accounting Policies**

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

#### *Warrant Liabilities*

We do not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. We evaluate all of our financial instruments, including issued stock purchase warrants, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives, pursuant to ASC 480 and ASC 815. We account for the Warrants in accordance with the guidance contained in ASC 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, we classify the Warrants as liabilities at their fair value and adjust the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheets date until exercised, and any change in fair value is recognized in our statements of operations. The Private Placement Warrants and the Public Warrants for periods where no observable traded price was available are valued using a Monte Carlo simulation. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price will be used as the fair value as of each relevant date.

#### *Class A Ordinary Shares Subject to Possible Redemption*

We account for our ordinary shares subject to possible conversion in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Ordinary shares subject to mandatory redemption are classified as a liability instrument and measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) are classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. Our ordinary shares feature certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, ordinary shares subject to possible redemption are presented at redemption value as temporary equity, outside of the shareholders’ equity section of our condensed balance sheets.

#### *Net Income (Loss) Per Ordinary Share*

We apply the two-class method in calculating earnings per share. Net income (loss) per ordinary share, basic and diluted for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account by the weighted average number of Class A redeemable ordinary shares outstanding since original issuance. Net loss per ordinary share, basic and diluted for Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), less income attributable to Class A redeemable ordinary shares, by the weighted average number of Class B non-redeemable ordinary shares outstanding for the periods presented.

## [Table of Contents](#)

### *Recent Accounting Standards*

In August 2020, the Financial Accounting Standards Board (“FASB”) issued ASU 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022, and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company adopted ASU 2020-06 as of January 1, 2021, and the adoption did not have an impact on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Not required for smaller reporting companies.

### **Item 4. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the fiscal quarter ended June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial and accounting officer have concluded that during the period covered by this report, solely due to the Company’s restatement of its financial statements to reclassify the Company’s warrants as described in the Note 2 to the Financial Statement herein, our disclosure controls and procedures were not effective as of June 30, 2021, and that the foregoing arose as a result of a material weakness in the Company’s internal control over financial reporting. In light of this material weakness, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Quarterly Report on Form 10-Q present fairly in all material respects our financial position, results of operations and cash flows for the periods presented.

#### **Changes in Internal Control over Financial Reporting**

There was no change in our internal control over financial reporting that occurred during the fiscal quarter of 2021 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting as the circumstances that led to the restatement of the financial statements had not yet been identified. However, as management has identified a material weakness in our internal control over financial reporting with respect to the classification of the Company’s Warrants as components of equity instead of as liabilities, as well as the related determination of the fair value of warrant liabilities, additional paid-in capital and accumulated deficit, and related financial disclosures, the Company intends to address this material weakness by enhancing its processes to identify and appropriately apply applicable accounting requirements to better evaluate its research and understanding of the nuances of the complex accounting standards that apply to its financial statements. The Company’s current plans include providing enhanced access to accounting literature, research materials and documents and increased communication among its personnel and third-party professionals with whom it consults regarding complex accounting applications. The Company has also retained the services of a valuation expert to assist in valuation analysis of the Warrants on a quarterly basis.

## **PART II—OTHER INFORMATION**

### **Item 1. Legal Proceedings**

None

**Item 1A. Risk Factors**

Factors that could cause our actual results to differ materially from those in this report include the risk factors described in our final prospectus for its Initial Public Offering filed with the SEC. As of the date of this Report, there have been no material changes to the risk factors disclosed in our final prospectus for its Initial Public Offering filed with the SEC as supplemented by the risk factors included in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2021.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

On March 4, 2021, we consummated the Initial Public Offering of 30,000,000 Units. The Units were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$300,000,000. Citigroup Global Markets Inc. acted as sole book-running manager and Drexel Hamilton, LLC and Roberts & Ryan Investments, Inc. acted as co-managers, of the Initial Public Offering. The securities in the offering were registered under the Securities Act on registration statement on Form S-1 (No. 333-252891). The Securities and Exchange Commission declared the registration statements effective on March 1, 2021.

Simultaneous with the consummation of the Initial Public Offering, the Sponsor consummated the private placement of an aggregate of 6,000,000 Warrants at a price of \$1.50 per Private Placement Warrant, generating total proceeds of \$9,000,000. Each whole Private Warrant is exercisable to purchase one ordinary share at an exercise price of \$11.50 per share. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

The Private Warrants are identical to the warrants underlying the Units sold in the Initial Public Offering, except that the Private Warrants are not transferable, assignable or salable until after the completion of a Business Combination, subject to certain limited exceptions.

On March 5, 2021, the underwriters partially exercised their over-allotment option, resulting in the sale of an additional 945,072 Units for gross proceeds of \$9,450,720, less the underwriters' discount of \$189,014. In connection with the underwriters' exercise of their over-allotment option, the Company also consummated the sale of an additional 126,010 Private Placement Warrants at \$1.50 per Private Placement Warrant, generating total proceeds of \$189,015. A total of \$9,450,720 was deposited into the Trust Account.

## Table of Contents

Of the gross proceeds received from the Initial Public Offering, the exercise of the over-allotment option and the Private Placement Warrants, an aggregate of \$309,450,720 was placed in the Trust Account.

We paid a total of \$6,189,014 in underwriting discounts and commissions and \$481,557 for other costs and expenses related to the Initial Public Offering.

For a description of the use of the proceeds generated in our Initial Public Offering, see Part I, Item 2 of this Form 10-Q.

**CERTIFICATION OF CO-CHIEF EXECUTIVE OFFICER  
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Christopher Gaertner, certify that:

1. I have reviewed this quarterly report on Form 10-Q of DHC Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
  - b) Paragraph omitted pursuant to Exchange Act Rules 13a-14(a) and 15d-15(a);
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of DHC Acquisition Corp. (the "Company") on Form 10-Q for the quarterly period ended June 30, 2021, as filed with the Securities and Exchange Commission (the "Report"), I, Christopher Gaertner, Co-Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: August 16, 2021

/s/ Christopher Gaertner
